SUBJECT: Zero Preventable Accidents

I am committed to reducing preventable accidents as one of the cornerstones of the Department of Defense's Safety Program. Consistent with the President's Safety, Health, and Return-To-Employment (SHARE) initiative, I have set some very specific mishap reduction goals for the Department. We are focused on closely monitoring our most pressing mishap areas: civilian and military injuries, aviation accidents, and the number one non-combat killer of our military, private motor vehicle accidents.

We can no longer tolerate the injuries, costs, and capability losses from preventable accidents. Accidents cost the Department about \$3 billion per year, with indirect costs up to four times that amount. We have made progress in reducing aviation accidents and civilian lost work days, but have much more to do to address military injuries and private motor vehicle fatalities. Our goal is zero preventable accidents, and I remain fully committed to achieving the 75% accident reduction target in 2008.

The current focus of our Safety Council is on increasing the accountability of individuals and leaders, as well as pursuing safety technologies. Accountability and leadership are key to an effective safety program. I urge you to continue to emphasize safety in the workplace and hold leaders accountable for their safety programs. Your efforts will make the Department a safer place to work, and more capable of defending the Nation and her interests. We have no greater responsibility than to take care of those who volunteer to serve.

A handwritten signature in black ink, appearing to read "Robert M. Gates".

“... Our goal is zero preventable accidents and I remain fully committed to achieving the 75% accident reduction target in 2008.

... The current focus of our Safety Council is on increasing the accountability of individuals and leaders, as well as pursuing safety technologies.

... We have no greater responsibility than to take care of those who volunteer to serve.”

Aviation Safety Historical Perspective

Magnitude of Accidents

In FY07, Navy and Marine Corps Operational Mishaps Resulted In:

NAVY

- **1 Navy death every 77 hours (3.2 days)**
- **1 POV death every 112 hours (4.7 days)**
- **1 Aviation death every 36 days**
- **1 aircraft destroyed every 45 days**
- **\$940K a day in aviation losses**

MARINE CORPS

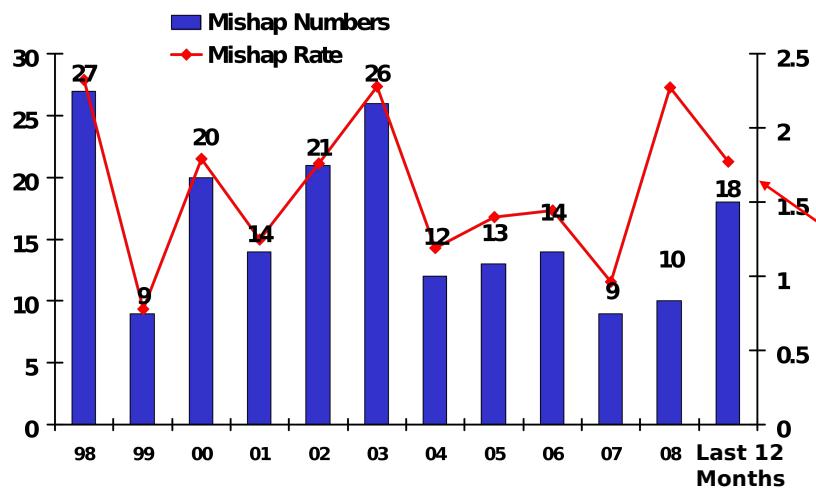

- **1 Marine death every 69 hours (2.9 days)**
- **1 POV death every 132 hours (5.5 days)**
- **1 Aviation death every 33 days**
- **1 Aircraft destroyed every 45 days**
- **\$463K a day in aviation losses**

TRENDS

Mishap Investigations

- Human error (aircrew):
Leading causal factors
 - Skill-based errors
 - Decision errorsLeading preconditions for errors
 - CRM failures
 - Adverse mental states
- Inexperience
- Training issues

TAKEAWAYS

- Adherence to basic rules, regulations and NATOPS procedures
- Proper pre- flight planning
- Training
- Proficiency
- Institutionalize ORM & CRM
- Enforce standards
- Increase checks and balances

Why Everyone Should Wear A Seatbelt

Factors In Traffic Deaths

(USN/USMC, FY02-06)

Fatigue is considered a major factor in traffic deaths, but is under-reported throughout the fleet.

FY02-06 Deaths: 627 (USN - 350) / (USMC - 277)

FY02: 140 (USN - 75) / (USMC - 65)

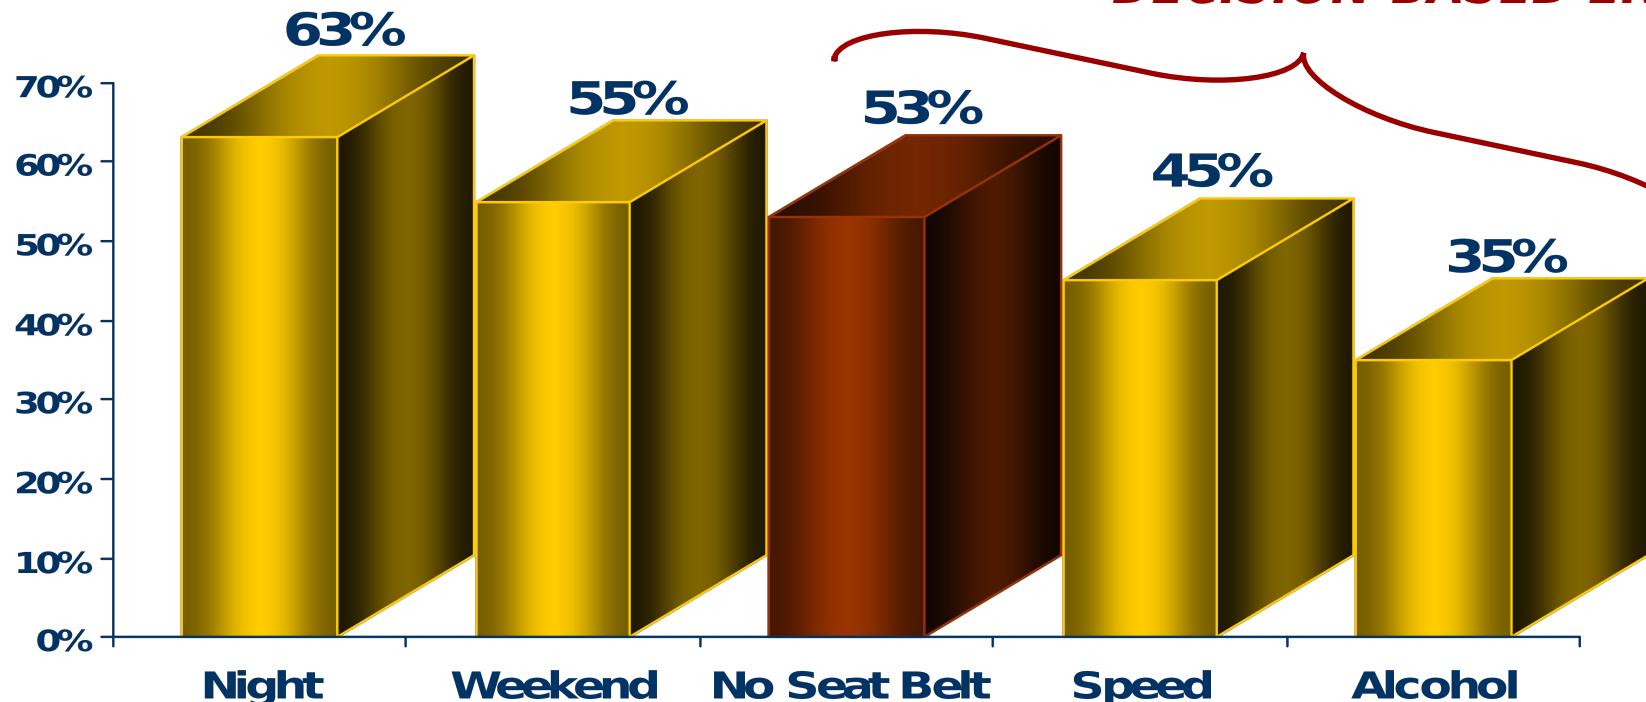

FY03: 119 (USN - 66) / (USMC - 53)

FY04: 119 (USN - 73) / (USMC - 46)

FY05: 105 (USN - 58) / (USMC - 47)

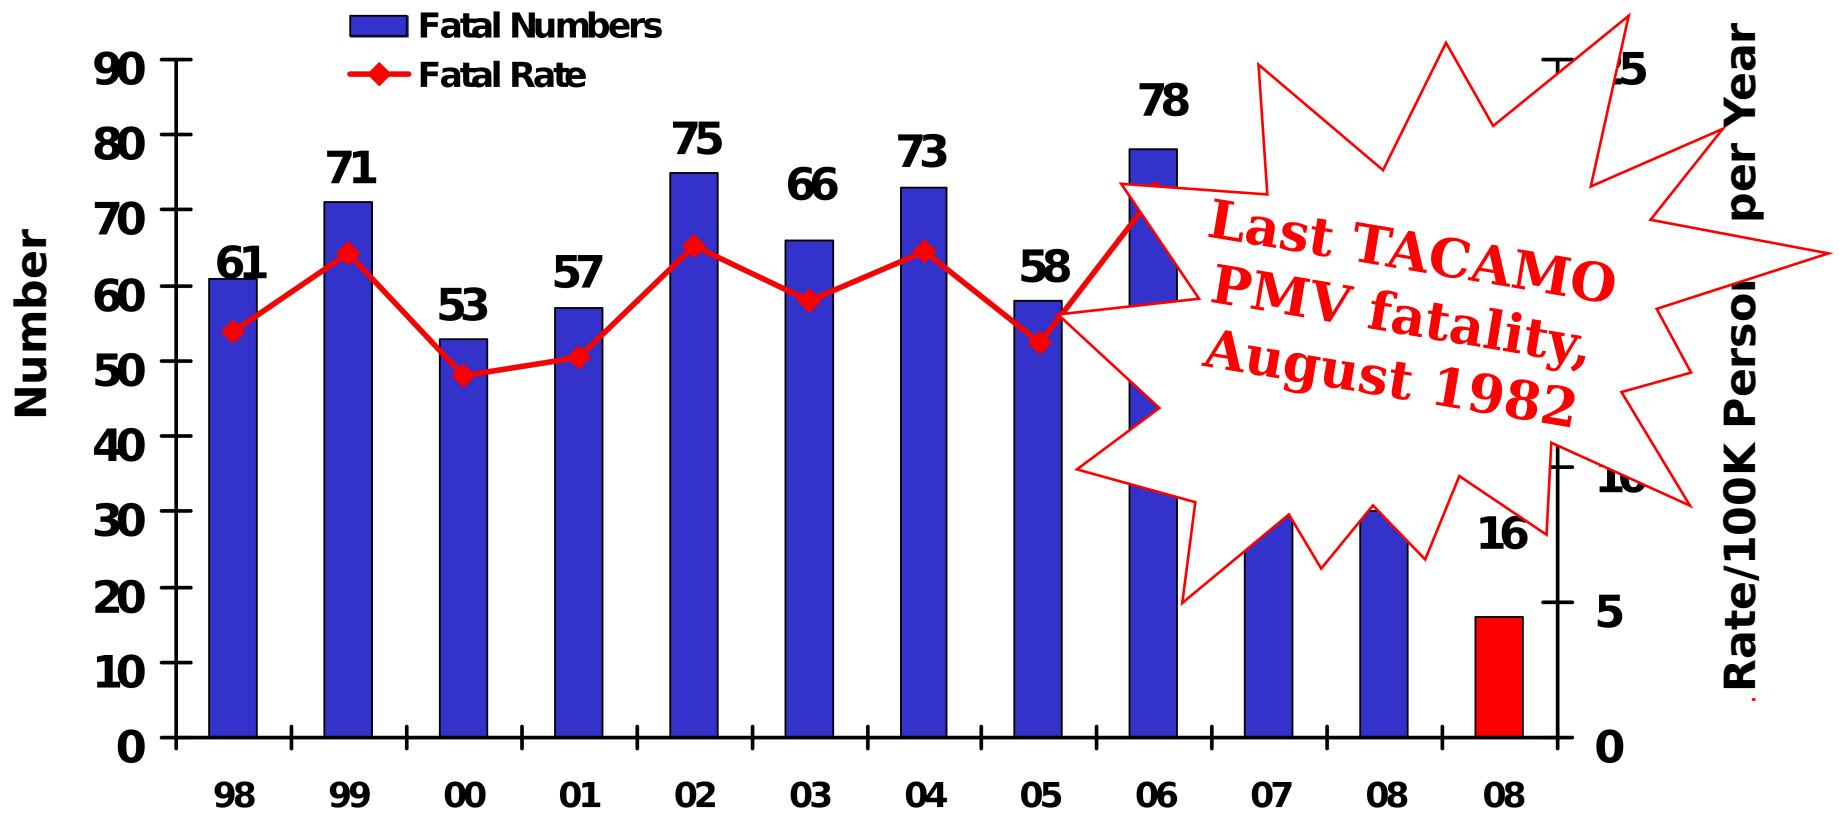

FY06: 144 (USN - 78) / (USMC - 66)

Motorcycle Safety

Fleet Best Practices - PMV

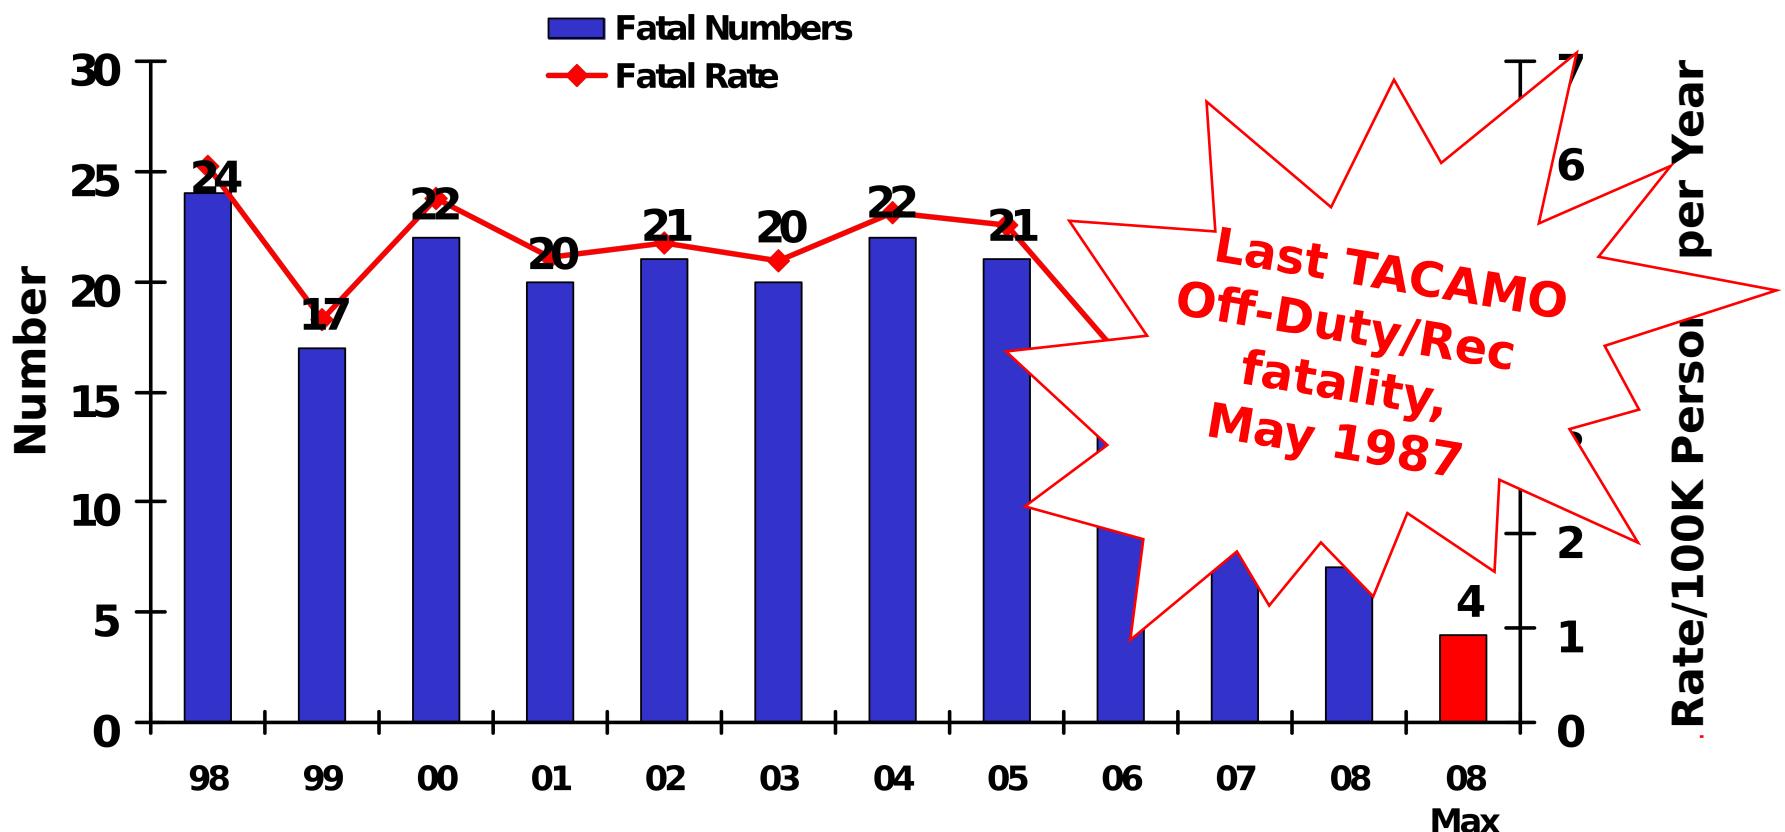

1. Understand who your risk takers are and help them manage risk; engaged mentorship
2. Recognize that becoming a safe driver is part of a young person's maturing process and is not complete until age 25
3. Use the Traffic Safety Toolbox on the Safety Center Website to help reduce mishaps
4. Engage in partnerships with local community. (Click It or Ticket, *You Drink, You Drive, You Lose*, MADD)
5. Solicit family members to help keep loved ones safe with letters home

How does ORM effect off duty fun?

Off-Duty/Rec Fatalities

USN ONLY

Apr 07 0 Off-duty/Rec Fatalities during this reporting period Apr 08 09

CLASS A FATALITIES/FATALITY RATE FY COMPARISON: 7 / 3.66 3 / 1.52

RATE: 10 / 2.67

10-YEAR AVERAGE (FY98-07) FATALITIES/FATALITY RATE: 19.2 / 4.80

Best Fleet Practices - Off-Duty Rec

1. Ensure all supervisors are engaged in Risk Management and Recreation, Athletics and Home Safety programs.
2. RAHS Program Managers – Ensure command personnel attend seasonal hazard awareness training.
3. Employ the risk management process during all on and off-duty activities.
4. Use Individual Off-Duty Risk Assessment Form to assess behavior factors and indicators related to off-duty recreation mishaps.
5. Make use of qualification training and skills test provided by MWR prior to using their facilities and

Effective Use of Risk Management

Sailors and Marines have died on the side of the road.

ORM: ***Risk Management*** ***Not Risk Avoidance***

Five Steps

1. Identify Hazards

5. Supervise

4. Implement Controls

2. Assess Hazards

3. Make Risk Decisions

- Easy, common-sense process
- Mind-set
- Way of life - On and Off Duty
- Operating discipline
- Process must be taught
- Must institutionalize ORM - it's not today

YOU CAN'T "ORM" SOMETHING THAT'S STUPID, TO SOMETHING THAT'S SMART!!!

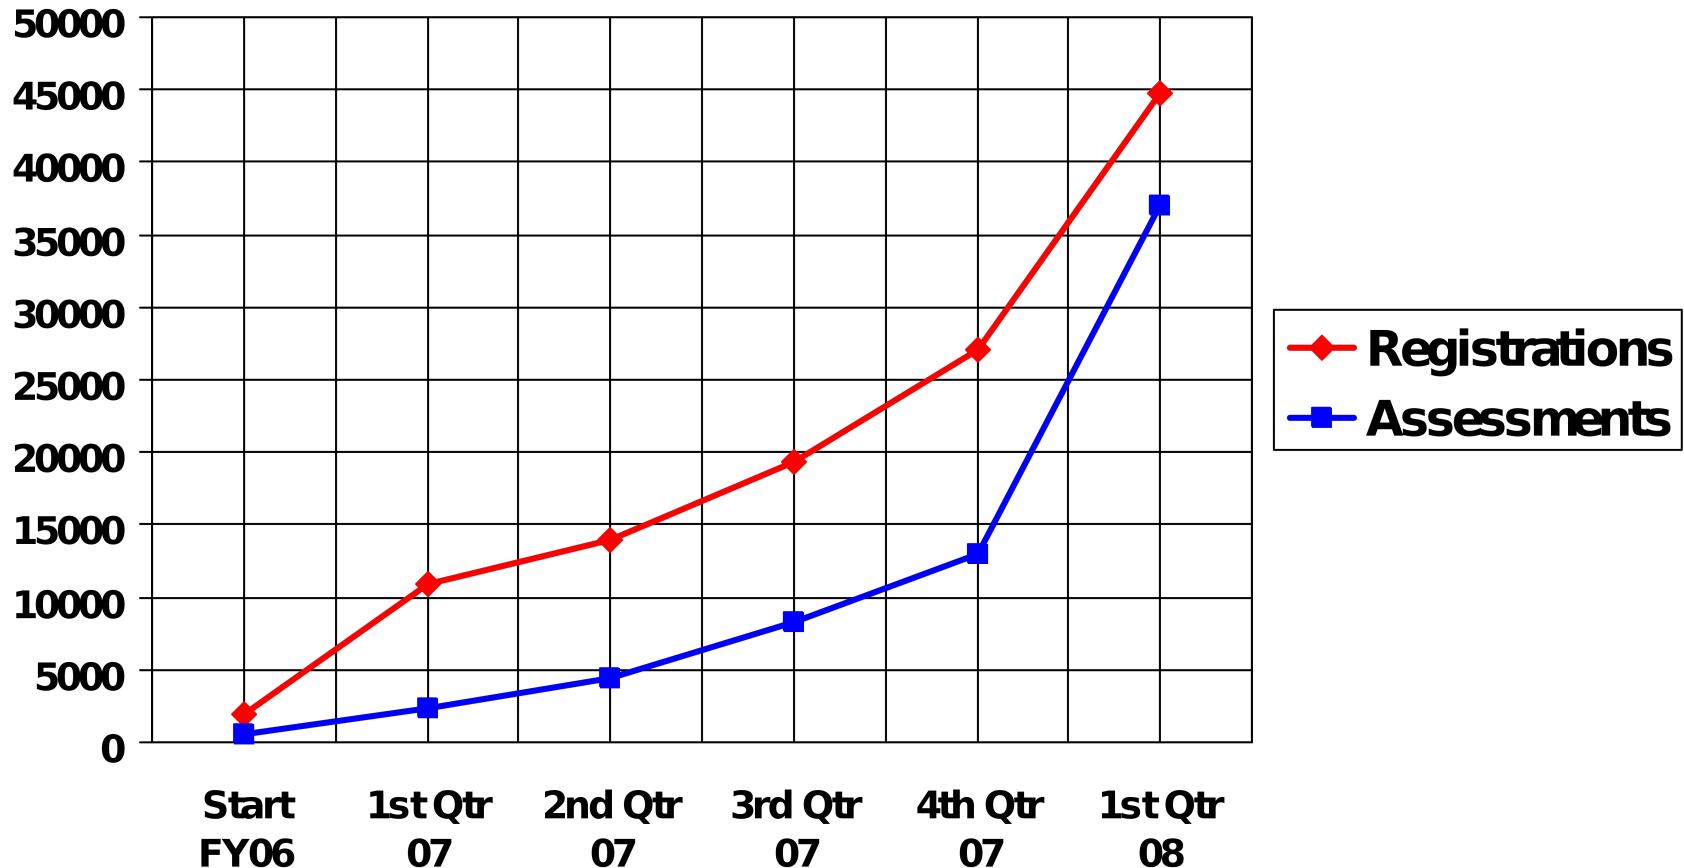

Travel Risk Planning System (TRiPS)

- Delivered to the Naval Safety Center for Fleet use in 2006; based on ASMIS-2 Army Safety Management Information System
- A click away on <http://www.safetycenter.navy.mil>
- Provides ORM trip assessment and actual mishap cases relevant to planned trip. Risk values/models based on NTSB data
- Trip map, times, distances and other products improve ***supervisor interaction***; CBT course content designed to help change behavior

Travel Risk Planning System

TRiPS usage increasing

65% increase in registrations

185% increase in assessments

Recommendations to Improve Safety

1. Naval Safety Center Website - Tools Are There!

- Traffic Safety Toolbox
- Web-Enabled Safety System (WESS) - Online mishap reporting / database
- Leave and Liberty Risk Assessments

2. Establish a SOLID Welcome Aboard, Sponsorship/Mentorship Program.

- First impressions are lasting ones
- On and Off duty activities must be addressed

3. Identify “High-Risk” personnel within your command.

- Engage leadership with subordinate personnel
- Provide awareness training on the popular high-risk activities participated by your crew and mentor high-risk personnel
- Identify motorcyclist, confirm required training is complete; add additional training requirements where appropriate

Recommendations to Improve Safety

4. Be Proactive and Involved.

- Schedule a Culture Workshop / Safety Survey**
- Distribute "Safe Ride" taxi cards**
- Conduct safety stand-downs when needed and pre-holiday**
- Require TRiPS and leave chit risk assessments prior to authorizing leave**

5. Maintain high-visibility within command.

- Enforce Established Standards- defined command safety policy**
- Treat every mishap the same (PMV/Off-Duty Fatality hurts command as much as an Operational Fatality)**
- Correct safety deficiencies immediately**
- Hold yourself and your personnel ACCOUNTABLE**

6. Expect what you INSPECT.

- Verify command policies are understood and followed**
- Demonstrate daily commitment to safety. If it's visibly important to you it will be to your crew.**

HAZREP Culture: Where We Want to Be

- **Establish an open environment for reporting**
 - Fleet Education on DON & NSC Objective
 - Instruction revision ✓ **OPNAVINST 3750.6R Ch 4 rewrite**
 - Training to encourage fleet support during surveys
 - Potential "Safety Hotline" for anonymous reporting
- **Encourage and reward reporting of hazards, near-misses, and lessons learned** ✓ **OPNAVINST 1650.28A recognizes HAZREP submissions for Safety "S"**
- **Identify leading indicators, maximize awareness, and prevent similar mishaps in the future**
 - Create measures of effectiveness to grade environment for hazard reporting
 - Database capabilities

TACAMO Safety Reporting

- **35 HAZREPS released to the fleet in FY07**
 - On track this FY
- **Diligent Ground Mishap reporting**
 - LWD Average above the fleet average due to responsible reporting, indicates a conscientious safety establishment that reports vice remaining silent.

What We Do for the Fleet
